

# Virtual Congress: *asapm* and UCCS announce: Managing Virtual Team Projects and Processes

May 10<sup>th</sup>, 2007 from 9:00-12:00am and 2:00-5:00pm MST

## ABOUT THIS UNIQUE EVENT

*asapm* (American Society for the Advancement of Project Management, together with UCCS (University of Colorado at Colorado Springs) and other Universities, are pleased to announce our **first virtual Congress** for 2007. The focus of this Congress is on managing virtual team projects and processes.

Researchers and practitioners active in the area of virtual teams or virtual projects are invited to submit papers on topics including, but not limited to: managing virtual team projects, managing virtual team members, the cultural aspects of virtual projects, the processes used in virtual projects or virtual teams and the training or education available for managers working in these areas.

The aim of this Congress is to use the latest virtual meeting technologies to discuss concurrent distributed meetings. This will allow academics and industry professionals to discuss the issues and best practices concerning virtual teams and their processes.

Two different audiences will participate— Universities and enterprises capable of supporting full motion video, and individuals participating from workstations with high speed connection capabilities.

## BENEFITS OF PARTICIPATION

Attendees will be able to meet to discuss research and practices in this area without the usual time and

monetary challenges associated with attending traditional Congresses or conferences.

Attendees will also experience the technology and processes that go into successful virtual meetings. Attendees will hear current best practices from organizations that have resolved virtual team issues.

And of course, attendees will get a chance to meet participating researchers and practitioners from around the world who do not attend local conferences due to monetary constraints.

## HOW TO PARTICIPATE

Attendees have the option of traveling to a regional site, or participating from their own high speed connectivity PC. The participating Universities or locations currently include (subject to change):

- ◆ University of Colorado (Colorado Springs)
- ◆ Northern Kentucky University (Cincinnati area)
- ◆ Cork, Ireland

Participants will either travel to one of the above locations, if convenient, or join in from their PC. For the most current list of participating locations, see the Congress website, [www.asapm.org/mvt](http://www.asapm.org/mvt).
